Customer Journey Map

Student: Pravesh Singh **Project:** Electric Vehicle Market Performance & Insights
Date: 1 November 2026 **Team:** Individual Project

This map describes a potential user's experience exploring the dashboard. It is a proposed journey, not the result of a formal customer study.

Journey element	Stage 1 — Discover	Stage 2 — Explore	Stage 3 — Interpret & share
Actions	Open the published dashboard and identify its purpose.	Move between both dashboards and inspect eight charts.	Compare measures and summarize supported observations.
Touchpoints	Tableau Public workbook and title.	Navigation buttons and manufacturer, sales, ratings, and battery charts.	Chart labels, axes, tooltips where available, and published link.
Customer thought	What EV information can I understand here?	How do manufacturers, sales, and battery measures compare?	What conclusions are supported by these charts?
Customer feeling	Curious; needs a clear starting point.	Engaged; needs clear labels and scales.	More confident when measures and limitations are explained.
Process ownership	Project creator: Pravesh Singh.	Project creator: Pravesh Singh.	Project creator: Pravesh Singh; user interprets results.
Opportunities	Explain dataset source and dashboard purpose.	Keep navigation visible and titles/units readable.	Add verified definitions, limitations, and evidence-based insights.
