Demonstration of Proposed Features

Student: Pravesh Singh **Project:** Electric Vehicle Market Performance & Insights
Date: 1 November 2026 **Team:** Individual Project

Feature checklist

Chart / feature	Status	Demonstration focus
Top 10 EV Manufacturers	Created	Manufacturer ranking by annual sales units.
Battery Technology Distribution	Created	Vehicle-record count by battery type.
Annual EV Sales Trend	Created	Annual sales units by model year.
Average Customer Rating	Created	Average customer rating.
Average Battery Capacity	Created	Average capacity by battery type.
Battery Degradation Analysis	Created	Five-year degradation measure across model years.
Average Battery Cycle Life	Created	Average cycle life by battery type.
Battery Degradation by Type	Created	Average five-year degradation by battery type.

Dashboard structure

Dashboard 1 contains charts 1–4. Dashboard 2 contains charts 5–8. Navigation buttons were added to move between the dashboards.

Implementation summary

Worksheets: 8 **Dashboards:** 2
Navigation: Added to both dashboards
Publication: Published on Tableau Public
Packaged workbook: Saved as a .twbx file

Verification still required

Before final submission, reopen the published workbook and verify each chart, navigation button, and displayed value. Add screenshots as evidence. Do not claim KPI cards, geographic analysis, filters, or other features unless they are present and tested.
