Project Demonstration Plan

Student: Pravesh Singh **Project:** Electric Vehicle Market Performance & Insights
Date: 1 November 2026 **Team:** Individual Project

Demonstration objective

Present the problem, explain the dataset and chart measures, demonstrate both published dashboards, and discuss validation, limitations, and future improvements.

Section	Time	Presenter	What to show / explain
Introduction and problem	1 min	Pravesh Singh	Project title, objective, and need for EV indicator comparison.
Dataset and measures	1–2 min	Pravesh Singh	Source CSV, selected fields, and measure definitions.
Dashboard 1	2 min	Pravesh Singh	Top manufacturers, battery distribution, annual sales trend, customer rating.
Dashboard 2	2 min	Pravesh Singh	Battery capacity, degradation, cycle life, degradation by type.
Navigation and publication	1 min	Pravesh Singh	Use navigation buttons and show Tableau Public workbook.
Validation and future scope	1–2 min	Pravesh Singh	Explain data coverage, validation checks, limitations, and improvements.

Demo preparation checklist

- Open the published Tableau Public workbook before recording.
- Test both dashboards and both navigation buttons.
- Keep the dataset and packaged workbook available as backup.
- Use actual dashboard screenshots if the live site or network is unavailable.
- Describe only features actually implemented.
- Add the recording URL to the report and submission after uploading.
